1983 Annual Index

ACCESSORY EQUIPMENT

Selection and evaluation of centrifugal pumps ..... Jan. p.17
Selection and care of hydraulic hoses ..... Jan. p.18
Electro-hydraulic controls increase versatility ..... Feb. p.17
Cable reeling system provides greater flexibility for electric LHD trucks that cut costs ..... Mar. p.30
Considerations in hoist selection ..... Mar. p.38
Choosing a compressor for mining ..... Apr. p.26
Alarm improves safety in uranium mines ..... Apr. p.34
New technology for miners cap lamps ..... Apr. p.25
Measuring airblast in surface mine blasting ..... Apr. p.38
Mobile communications aid mine productivity ..... Apr. p.43
Swedish answer to wandering boreholes ..... Apr. p.47
Electronic controls aid roof support systems ..... May p.1
Will mining equipment ever be made of plastics? ..... June p.16
Selecting tires for above and below ground ..... June p.41
Ventilation hoods to reduce dust during bag-filling ..... June p.42
Computer controls used in South African grinding application ..... June p.46
Desktop computer can speed many jobs ..... June p.36
New chain improves conveying ..... June p.44
Hydraulic hose: how to apply and install ..... Aug. p.40
Pumps to reduce dewatering costs ..... Sept. p.31
Designing more reliable engine components ..... Sept. p.36
Are tire chains worthwhile? ..... Oct. p.23
Maintainable engines: What to look for ..... Nov. p.20
Waste disposal at remote mining locations ..... Nov. p.29

CONFERENCES AND EXHIBITS

South African mining congress examines technological progress ..... Jan. p.26
Electra Mining '82: exhibitors try for $15-billion market ..... Feb. p.44
Eurotunnel '83 will expand range of exhibitors ..... Apr. p.42
AIMEX '83: tapping an over-$5-billion market ..... May p.67
ABMEC '83—an important exhibition and conference ..... May p.36
Directory of ABMEC members ..... May p.41
Timetable of sessions ..... May p.2
ABMEC '83: Specialized equipment and conference ..... Sept. p.19

DRILLING AND BLASTING

Drilling in remote locations ..... Jan. p.38
Hydraulic technology cuts drilling costs ..... Feb. p.14
Broken Hill mine tests two types of rock drills ..... Feb. p.15
Electro-hydraulic controls increase versatility ..... Feb. p.17
Mechanization needed to speed South African shaft sinking ..... Feb. p.17
Drilling for coal in Australia's wine country ..... Feb. p.19
Measuring airblast in surface mine blasting ..... Apr. p.38
Swedish answer to wandering boreholes ..... Apr. p.47
Bigger and better rippers and breakers help cut costs in mines ..... May p.67
How to analyze and compare hydraulic hammers ..... May p.70
Electric blasting's effects on mining ..... June p.24
Computers analyze recent blasting accidents ..... June p.29
Drills designed for greater productivity ..... July p.38
Core drills—have they been improved? ..... Aug. p.43
Breakers increase productivity in North and South American mines ..... Aug. p.48
The use of high-speed motion picture photography in blast evaluation and design ..... Nov. p.54
Mechanized charging from Sweden ..... Nov. p.52
How to improve performance on hydraulic drill rigs ..... Dec. p.32

EQUIPMENT COST EVALUATION

Cost and other advantages of aerial ropeway transport ..... Jan. p 34
Electric assist cuts diesel costs in South Africa ..... Jan. p.16
Draglines dig deep to raise profits ..... Jan. p.16
Mobile in-pit crushers can reduce a mine's costs ..... Jan. p.43
Hydraulic technology cuts drilling costs ..... Feb. p.14
New magnetometer technology cuts exploration costs ..... Feb. p.37
Plasma process cuts smelting costs ..... Feb. p.43
Trucks' features that cut mining costs ..... Mar. p.42
LHD saves time and money in mine ..... Mar. p.25
Cable reeling system provides greater flexibility for electric LHD trucks that cut costs ..... Mar. p.30
Price vs. payoff of automated mines ..... Apr. p.16
Proper conveyor maintenance reduces downtime costs ..... Apr. p.30
Bigger and better rippers and breakers help cut costs in mines ..... May p.67
Smaller mineral analysis units cut costs ..... May p.79
New system cuts time and costs of mineral and coal analysis ..... May p.80
Trolley-assist haulage saves fuel ..... May p.72
Factors to consider when choosing a cost effective excavator ..... July p.71
Pumps to reduce dewatering costs ..... Sept. p.31
Saving on open-pit transport ..... Sept. p.37
Special equipment required for lignite mining ..... Sept. p.42
Excavating equipment that reduces costs ..... Oct. p.14
Management reorganization cuts costs ..... Oct. p.31
Draglines prove economical in overburden removal ..... Nov. p.31
Does exploration have to be expensive? ..... Dec. p.33

EQUIPMENT FUNCTION EVALUATION

Selection and evaluation of centrifugal pumps ..... Jan. p.17
Selection and care of hydraulic hoses ..... Jan. p.18
Cost and other advantages of aerial ropeway transport ..... Jan. p.34
Broken Hill mine tests two types of rock drills ..... Feb. p.15
Electro-hydraulic controls increase versatility ..... Feb. p.17
Mechanization needed to speed South African shaft sinking ..... Feb. p.17
Testing equipment—in and out of mines ..... Feb. p.26
Human labs test cab comfort ..... Feb. p.30
Electra Mining '82: exhibitors try for $15-billion market ..... Feb. p.44
New mill lining wears less ..... Feb. p.21
Solving slurry's water and other problems ..... Mar. p.32
Considerations in hoist selection ..... Mar. p.38
Mechanized scalers test well in Swedish mines ..... Apr. p.15
Choosing a compressor for mining ..... Apr. p.26
Alarm improves safety in uranium mines ..... Apr. p.34
Bigger flotation units are better for many applications ..... Apr. p.18
The rationale of sizing and selection ..... Apr. p.19
How to analyze and compare hydraulic hammers ..... May p.70
New system cuts time and costs of mineral and coal analysis ..... May p.80
New developments in powered supports for longwall faces ..... May p.30
Single roll crusher handles large coal and rock ..... May p.66
Will mining equipment ever be made of plastics? ..... June p.16
Selecting tires for above and below ground ..... June p.41
Ventilation hoods to reduce dust during bag-filling ..... June p.42
Grinding: larger mills are the trend ..... June p.46
Equipment and technology guidebook ..... July p.22
Factors to consider when choosing a cost effective excavator ..... July p.71
Rollers made for abrasive coal ..... July p.68
Moving men and material underground ..... Aug. p.17
Control system increases jig performance ..... Aug. p.37
Hydraulic hose: How to apply and install ..... Aug. p.40
Pumps to reduce dewatering costs ..... Sept. p.31
Special equipment required for lignite mining ..... Sept. p.42
Excavating equipment that reduces costs ..... Oct. p.14
Hydrocyclones used to improve recoveries ..... Nov. p.62

EQUIPMENT MAINTENANCE

New method helps retard corrosion ..... Feb. p.24
Truck maintenance program helps mine productivity ..... Feb. p.42
Total loader maintenance is important ..... Aug. p.29
Improving spare parts management ..... Sept. p.16
Maintainable engines: What to look for ..... Nov. p.20

EQUIPMENT MANAGEMENT

How to cut open-pit costs continuously ..... Jan. p.14
Users give dozer good grades ..... Jan. p.15
Draglines dig deep to raise profits ..... Jan. p.7
Expanded computer use helps improve underground mining ..... Jan. p.24
New screening technique keeps coal flowing ..... Jan. p.30
Longwall use increases in Australian coal mines ..... Jan. p.37
Drilling in remote locations ... Jan. p.38
Drilling for coal in Australia's wine country .... Feb. p.19
Mass excavation maximizes truck efficiency ..... Mar. p.45
Proper conveyor maintenance reduces downtime costs ..... Apr. p.30
Preventive bearing maintenance keeps conveyors running ..... Apr. p.33
Automatic lubrication systems formed ..... Apr. p.40
Right packing reduces downtime ..... June p.40
Avoiding conveyor backup problems ..... July p.69
Moving men and material underground ..... Aug. p.17
Colombian gold transportation ..... Aug. p.36
Hydraulic hose: how to apply and install ..... Aug. p.40
Less work for draglines with prestripping ..... Sept. p.14
Improving spare parts management ..... Sept. p.16
Excavating equipment that reduces costs ..... Oct. p.14
Transporter for off-highway units ..... Oct. p.21
Are tire chains worthwhile? .... Oct. p.23
Plantecon Research Ltd. will provide equipment data ..... Oct. p.35
Ways to reduce coal cutting noise ..... Nov. p.64
In-pit crushers prove profitable ..... Nov. p.30
Impact crushers increase production ..... Nov. p.34
High-capacity trucks—electric or mechanical? ..... Dec. p.21
Excavator size makes the difference ..... Dec. p.24
How to improve performance on hydraulic drill rigs ... Dec. p.32

EQUIPMENT PARTS

Human labs test cab comfort ..... Feb. p.30
New mill lining wears less ..... Feb. p.21
Cable reeling system provides greater flexibility for electric
LHD trucks that cut costs .... Mar. p.30
Preventive bearing maintenance keeps conveyors running ..... Apr. p.33
Automatic lubrication systems favored ..... Apr. p.40
Will mining equipment ever be made of plastics? ..... June p.16
Computer controls used in South African grinding application ..... June p.46
Right packing reduces downtime ..... June p.40
New chain improves conveying ..... June p.44
Avoiding conveyor backup problems ..... July p.69
Rollers made for abrasive coal ..... July p.68
Total loader maintenance is important ..... Aug. p.29
Conveyor downtime reduced by splicing ..... Aug. p.34
Improving spare parts management ..... Sept. p.16
Designing more reliable engine components ..... Sept. p.36
High-capacity trucks—electric or mechanical? ..... Dec. p.21
How to improve performance on hydraulic drill rigs ..... Dec. p.32

EXPLORATION EQUIPMENT

Versatile, low-energy source of seismic surveys ..... Jan. p.31
New techniques and equipment help improve exploration practices ..... Feb. p.32
Metal analysis probe developed for in-situ assays ..... Feb. p.33
Cooperation credited for survey's success ..... Feb. p.34
New magnetometer technology cuts exploration costs ..... Feb. p.37
New process permits direct detection of key minerals ..... Feb. p.39
Smaller mineral analysis units cut cost ..... May p.79
New system cuts time and costs of mineral and coal analysis ..... May p.80
Exploration goes electronic .... July p.48
Core drills—have they been improved? ..... Aug. p.43
Does exploration have to be expensive? ..... Dec. p.33

EXTRACTION AND LOADING EQUIPMENT

How to cut open-pit costs continuously ..... Jan. p.14
Users give dozer good grades ..... Jan. p.15
Electric assist cuts diesel costs in South Africa ..... Jan. p.16
Draglines dig deep to raise profits ..... Jan. p.16
Geotechnical instrumentation makes fast tunneling safe ..... Jan. p.22
Expanded computer use helps improve underground mining ..... Jan. p.24
Three shale oil recovery methods demonstrated ..... Jan. p.32
Longwall use increases in Australian coal mines ..... Jan. p.37
New developments in loading and hauling equipment ..... Mar. p.17
Mass excavation maximizes truck efficiency ..... Mar. p.45
LHD saves time and money in mine ..... Mar. p.25
Cable reeling system provides greater flexibility for electric LHD trucks that cut costs ..... Mar. p.30
Flexible LHDs speed underground mining operations ..... Mar. p.24
Mechanized scalers test well in Swedish mines ..... Apr. p.15
How to analyze and compare hydraulic hammers ..... May p.70
Bigger and better rippers and breakers help cut costs in mines ..... May p.67
New developments in powered supports for longwall faces ..... May p.30
German backhoes suit Spain's open pit ..... May p.75
Underground technology ..... July p.44
More productivity: open-pit machines' goal ..... July p.55
Factors to consider when choosing a cost effective excavator ..... July p.71
Total loader maintenance is important ..... Aug. p.29
Less work for draglines with prestripping ..... Sept. p.14
ABMEC '83 specialized equipment and conference ..... Sept. p.19
Special equipment needed at gypsum mine ..... Sept. p.35
Special equipment required for lignite mining ..... Sept. p.42
Excavating equipment that reduces costs ..... Oct. p.14
Transporter for off-highway units ..... Oct. p.21
Automatic steering ups longwall output ..... Oct. p.29
Deep mines: Harsh conditions demand daring technical solutions ..... Nov. p.27
Draglines prove economical in overburden removal ..... Nov. p.31
Ways to reduce coal cutting noise ..... Nov. p.64
Trends in underground mining ..... Nov. p.58
Improving continuous miner output ..... Dec. p.16
Excavator size makes the difference ..... Dec. p.24

GLOBAL OUTLOOK

South African mining congress examines technological progress ..... Jan. p.26
A look at the future: British mining research and development ..... Mar. p.24
Top 250 companies/agencies ..... July p.7
The top (and bottom) mining stocks ..... July p.20
Mining's future follows technology's lead ..... Nov. p.10
Mining Indonesia ..... Nov. p.20
Mining outlook: The Middle East ..... Nov. p.41
Argentinian uranium production ..... Dec. p.29

MINING MANAGEMENT

Three shale oil recovery methods demonstrated ..... Jan. p.32
Expanded computer use helps improve underground mining ..... Jan. p.24
How to maximize local project control ..... Jan. p.36
Broken Hill mine tests two types of rock drills ..... Feb. p.15
Drilling for coal in Australia's wine country .... Feb. p.19
New techniques and equipment help improve exploration practices ..... Feb. p.32
Cooperation credited for survey's success ..... Feb. p.34
Testing equipment—in and out of mines ..... Feb. p.26
Human labs test cab comfort ..... Feb. p.30
Finding enough financing to operate profitably ..... Mar. p.22
Avoiding the hazards of abandoned mines ..... Mar. p.34
Flexible LHDs save time and money in mine ..... Mar. p.25
Proper haul road maintenance can mean better production ..... Mar. p.40
Solving slurry's water and other problems ..... Mar. p.32
Price vs. payoff of automated mines ..... Apr. p.16
The rationale of sizing and selection ..... Apr. p.19
Flotation aids fine tin recovery ..... Apr. p.23
Flotation technique increases phosphate yield ..... Apr. p.23
Measuring airblast in surface mine blasting ..... Apr. p.38
Conveyor defends itself in the Sahara ..... Apr. p.39
Mobile communications aid mine productivity ..... Apr. p.43
Coal preparation progresses in India ..... Apr. p.46
British mining technology—promising systems available now ..... May p.23
German backhoes suit Spain's open pit ..... May p.75
Electric blasting's effects on mining ..... June p.24
Computers analyze recent blasting accidents ..... June p.29
Desktop computer can speed many jobs ..... June p.36
The top (and bottom) mining stocks ..... July p.20
Control system increases jig performance ..... Aug. p.37
Miklos Salamon: The genius of deep mine technology .... Sept. p.10
Less work for draglines with prestripping ..... Sept. p.14
Special equipment needed at gypsum mine ..... Sept. p.35
Transporter for off-highway units ..... Oct. p.21
Management reorganization cuts costs ..... Oct. p.31
Plant size will increase preparation efficiency ..... Oct. p.33
Automation can help stretch financing potential ..... Oct. p.36
Mining's future follows technology's lead ..... Nov. p.10
Helicopters—luxury or last resort? ..... Nov. p.15
Continuous mine-monitoring for improved reliability ..... Nov. p.36
The use of high-speed motion picture photography in blast evaluation and design ..... Nov. p.54
Waste disposal at remote mining locations ..... Nov. p.29
Mechanized charging from Sweden ..... Nov. p.52
Improving continuous miner output ..... Dec. p.16
Peter Tregelles: Master of mining's computer revolution ..... Dec. p.26
Does exploration have to be expensive? ..... Dec. p.33
German technology ..... Dec. p.37

NEW TECHNOLOGY

Breathing apparatus passes tough test ..... Jan. p.20
Flotation machines designed to improve air-dispersion ..... Jan. p.45
South African mining congress examines

technological progress .....Jan. p.25
Versatile, low-energy source of seismic surveys .....Jan. p.31
Three shale oil recovery methods demonstrated .....Jan. p.32
Reducing crusher noise .....Jan. p.43
New techniques and equipment help improve exploration practices .....Feb. p.32
Metal analysis probe developed for in-situ assays .....Feb. p.33
New magnetometer technology cuts exploration costs .....Feb. p.37
Swedish research—why it's called the "advance wave" .....Feb. p.23
New process permits direct detection of key minerals .....Feb. p.39
New developments in loading and hauling equipment .....Mar. p.17
Solving slurry's water and other problems .....Mar. p.32
Price vs. payoff of automated mines .....Apr. p.16
New technology for miners cap lamps .....Apr. p.25
Swedish answer to wandering boreholes .....Apr. p.47
Electronic controls aid roof support systems .....May p.19
AIMEX '83: tapping an over-$5-billion market .....May p.61
British mining technology—promising systems available now .....May p.23
A look at the future: British mining research and development .....May p.24
New developments in powered supports for longwall faces .....May p.30
Will mining equipment ever be made of plastics? .....June p.16
Computer controls used in South African grinding application .....June p.46
Equipment and technology guidebook .....July p.22
Drills designed for greater productivity .....July p.38
Underground technology .....July p.44
Exploration goes electronic ....July p.48
Improved safety and communications technology .....July p.53
Underground transport: comparing technology .....July p.64
More productivity: open-pit machines' goal .....July p.55
Robot miners .....Aug. p.13
The future of trucks .....Aug. p.21
Core drills—have they been improved? .....Aug. p.43
Miklos Salamon: The genius of deep mine technology ....Sept. p.10
ABMEC '83: Specialized equipment and conference .....Sept. p.19
Designing more reliable engine components .....Sept. p.36
Automatic steering ups longwall output .....Oct. p.29
Automation can help stretch financing potential .....Oct. p.36
Deep mines: Harsh conditions demand daring technical solutions .....Nov. p.27
Continuous mine-monitoring for improved reliability .....Nov. p.36
Ways to reduce coal cutting noise .....Nov. p.64
Vibro-acoustics reduce processing problems .....Nov. p.50
Trends in underground mining .....Nov. p.58
Improving continuous miner output .....Dec. p.16
Peter Tregelles: Master of mining's computer revolution .....Dec. p.26
Argentinian uranium production .....Dec. p.29
German technology .....Dec. p.37

PROCESSING EQUIPMENT, SUPPLIES

Mobile in-pit crushers can reduce a mine's costs .....Jan. p.43
Reducing crusher noise .....Jan. p.43
Flotation machines designed to improve air-dispersion .....Jan. p.45
New screening technique keeps coal flowing .....Jan. p.30
New mill lining wears less .....Feb. p.21
Stones won't bounce in this new crusher .....Feb. p.31
Plasma process cuts smelting costs .....Feb. p.43
Bigger flotation units are better for many applications .....Apr. p.18
The rationale of sizing and selection .....Apr. p.19
Flotation aids fine tin recovery .....Apr. p.23
Flotation technique increases phosphate yield .....Apr. p.23
Coal preparation progresses in India .....Apr. p.46
Single roll crusher handles large coal and rock .....May p.66
Grinding: larger mills are the trend .....June p.46
Computer controls used in South African grinding application .....June p.46
Processing at the mine is most economical .....July p.39
Control system increases jig performance .....Aug. p.37
Plant size will increase preparation efficiency .....Oct. p.33
Compact unit collects mine and mill dust .....Oct. p.40
Vibro-acoustics reduce processing problems .....Nov. p.50
Hydrocyclones used to improve recoveries .....Nov. p.62

ROOF SUPPORT EQUIPMENT

Price vs. payoff of automated mines .....Apr. p.16
Electronic controls aid roof support systems .....May p.19
New developments in powered supports for longwall faces .....May p.30
Underground technology .....July p.44
ABMEC '83: Specialized equipment and conference .....Sept. p.19
Automatic steering ups longwall output .....Oct. p.29
Deep mines: Harsh conditions demand daring technical solutions .....Nov. p.27
Trends in underground mining .....Nov. p.58
German technology .....Dec. p.37

SAFETY, HEALTH, AND RESCUE EQUIPMENT

Breathing apparatus passes tough test .....Jan. p.20
Geotechnical instrumentation makes fast tunneling safe .....Jan. p.22
Light has own filter .....Jan. p.22
Survival kit can prevent deaths .....Jan. p.22
Avoiding the hazards of abandoned mines .....Mar. p.34
Alarm safety in uranium mines .....Apr. p.34
New technology for miners cap lamps .....Apr. p.25
Mobile communications aid mine productivity .....Apr. p.43
Computers analyze recent blasting accidents .....June p.29
Ventilation hoods to reduce dust during bag-filling .....June p.42
Improved safety and communications technology .....July p.53
Breakers increase productivity in North and South American mines .....Aug. p.48
Special equipment needed at gypsum mine .....Sept. p.35
Compact unit collects mine and mill dust .....Oct. p.40
Deep mines: Harsh conditions demand daring technical solutions .....Nov. p.27
Continuous mine-monitoring for improved reliability .....Nov. p.36
In-pit crushers prove profitable .....Nov. p.30
Impact crushers increase production .....Nov. p.34

SIZE REDUCTION AND CLASSIFICATION EQUIPMENT

Mobile in-pit crushers can reduce a mine's costs .....Jan. p.43
Reducing crusher noise .....Jan. p.43
Flotation machines designed to improve air-dispersion .....Jan. p.45
New screening technique keeps coal flowing .....Jan. p.30
New mill lining wears less .....Feb. p.21
Stones won't bounce in this new crusher .....Feb. p.31
Bigger flotation units are better for many applications .....Apr. p.18
The rationale of sizing and selection .....Apr. p.19
Flotation aids fine tin recovery .....Apr. p.23
Flotation technique increases phosphate yield .....Apr. p.23
Single roll crusher handles large coal and rock .....May p.66
Grinding: larger mills are the trend .....June p.46
Computer controls used in South African grinding application .....June p.46
Compact unit collects mine and mill dust .....Oct. p.40
In-pit crushers prove profitable .....Nov. p.30
Impact crushers increase production .....Nov. p.34
Hydrocyclones used to improve recoveries .....Nov. p.62

SUPPLEMENTS, DIRECTORIES

MEI's 1982 Annual Index .....Jan. p.40
Swedish research—why it's called the "advance wave" .....Feb. p.23
British mining technology—promising systems available now .....May p.23
A look at the future: British mining research and development .....May p.24
The art of British mining .....May p.18
New developments in powered supports for longwall faces .....May p.30
ABMEC '83—an important exhibition and conference .....May p.36
Timetable of sessions .....May p.53
Directory of ABMEC members .....May p.41
How to use the Top 250/ Equipment and Technology Guidebook .....July p.5
The Top 250 Companies/ Agencies .....July p.7
The top (and bottom) mining stocks .....July p.20
Equipment and Technology Guidebook .....July p.22
Drills designed for greater productivity .....July p.38
Processing at the mine is most economical .....July p.39
Underground technology .....July p.44
Exploration goes electronic ....July p.48
Improved safety and communications technology .....July p.53
More productivity: open-pit machines' goal .....July p.55
Underground transport: comparing technology .....July p.64
German technology .....Dec. p.37
Coal Directory .....Dec. p.69

TRANSPORTATION EQUIPMENT

Cost and other advantages of aerial ropeway transport .....Jan. p.34
Truck maintenance program helps mine productivity .....Feb. p.42
New developments in loading and hauling equipment .....Mar. p.17
Solving slurry's water and other problems .....Mar. p.32
Trucks' features that cut mining costs .....Mar. p.42
Mass excavation maximizes truck efficiency .....Mar. p.45
Proper conveyor maintenance reduces downtime costs .....Apr. p.30
Preventive bearing maintenance keeps conveyors running .....Apr. p.33
Conveyor defends itself in the Sahara .....Apr. p.39
Trolley-assist haulage saves fuel .....May p.72
Coal terminal for deep water .....June p.39
New chain improves conveying .....June p.44
Underground transport: comparing technology .....July p.64
Avoiding conveyor backup problems .....July p.69
Moving men and material underground .....Aug. p.17
The future of trucks .....Aug. p.21
Conveyor downtime reduced by splicing .....Aug. p.34
Colombian gold transportation .....Aug. p.36
Saving on open-pit transport .....Sept. p.37
Transporter for off-highway units .....Oct. p.21
Helicopters—luxury or last resort? .....Nov. p.15
High-capacity trucks—electric or mechanical? .....Dec. p.21
